The Social Enterprise Mark criteria includes a requirement for all applicants and renewing Mark Holders to provide 'social impact statements', which illustrate how they are striving to meet their social/environmental objectives.

Below are examples of how **Space to Grow** is making a mark, striving to make a difference to society:

We also offer consulting and mentoring for individuals and organisations that connect with our social objectives – i.e. making our services available to people irrespective of their ability to pay.

The growth plant illustrates the way we work; the roots show our core values and we aim to provide you with an environment that honours these. We anticipate that you will experience an increase of one or more of the 'petals' in your personal and professional life.

Social outputs – financial value

We have donated £15k to the three main charities, and also a further £900 through CAF to various charities.

- A primary school (Hookstone Chase Community Primary School)
- A Leeds charity dealing with disadvantaged young people (Renew Leeds)
- An international peace organisation (ORG)
